Product description: Adamix HS is acetylated distarch adipate, obtained by chemical treatment of potato starch mixture of acetic anhydride and adipic acid. It is suitable for use as thickener and stabilizer in food products.

Product properties: The product is soluble in hot water and well-binds water without heating. It also has a high resistance to shear forces, acidic environment and temperature changes. Functions as stabilizer, emulsifier, carrier, thickener and binding agent.

Application: Adamix HS is particularly recommended for the production of ketchups, vegetable and meat and vegetable sauces, powdered desserts concentrates, powdered dinner concentrates, mayonnaise, salad dressings, reduced-calorie margarine, curd cheese, flavored fermented milk beverages heat treated after fermentation, pudding-type milk desserts, powdered ice cream, and fruit fillings for baking.

Physico-chemical requirements:
- Odour and taste: typical for potato starch, free from foreign odour and taste
- Colour in CIE, L system: not less than 91
- Moisture: not more than 20%
- pH: 5.5 – 7.5
- Ash content: not more than 0.80% in d.s.
- Macroscopic impurities: not more than 96 pcs/1dm²
- SO2 content: not more than 10 mg/kg
- Solubility in cold water: insoluble
- Acetyl group content: not more than 2.5%
- Adipate group content: not more than 0.135%
- Viscosity: not less than 600 °Bu
- Harmful metals content:
  - arsenic (As) – not more than: 0.50 mg/kg
  - lead (Pb) – not more than: 0.50 mg/kg
  - mercury (Hg) – not more than: 0.03 mg/kg
  - cadmium (Cd) – not more than: 0.10 mg/kg

Microbiological requirements:
- Type of microorganisms
  - Aerobic mesophilic organisms
  - Coliforms
  - Salmonella
  - Staphylococcus aureus
  - Moulds and Yeasts
- Limit in 1 g
  - n*: 10 000
  - c*: 0 (0,1g)
  - m*: 0 (0,01g)
  - M*: 0 (25g)
- Allergens: Product is free from allergens.

GMO: The product is not genetically modified, and has not been produced from genetically modified raw materials.

Pesticides: Pesticides are marked in potato starch that is a raw material in production of Adamix HS, and in which there is no residue of the tested active substances of plant protection higher than acceptable.

Packing: Adamix HS is packed in a valve paper bag of a 25 kg net. Other types of packing allowed by the NIH for packaging foods are possible after agreement with recipient.
Packings are marked by label or overprint including following data:
- Name and address of the producer,
- Labelling of the product,
- Reference standard,
- Net weight in kg,
- Date of production,
- Batch No. (same as the date of production),
- Bag No.,
- Shelf life.

**Storage conditions**
Recommended relative moisture of air: 60 – 75%, temperature should not exceed 20°C.

**Shelf life**
It should meet the requirements for a period of at least 24 months from date of manufacture, under appropriate conditions of packaging, storage and transport.

**Reference standard**
ZN-06/ZETPEZET-05 and the currently applicable regulations of EU law and national law.

*M* – accepted threshold value above which the results are disqualifying

*m* – value equal to or below which all results are considered satisfactory

*n* – number of samples in the batch

*c* – number of samples from a batch where the result between m and M
